PROFARM

Third partnership meeting in Deckenfronn (DE) 13/16 March 2017

Tennental... a social farming living and working community.

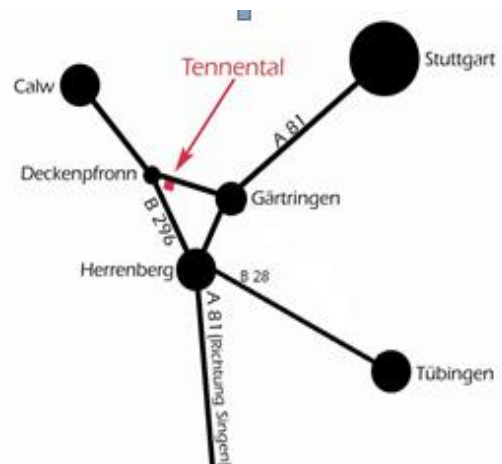

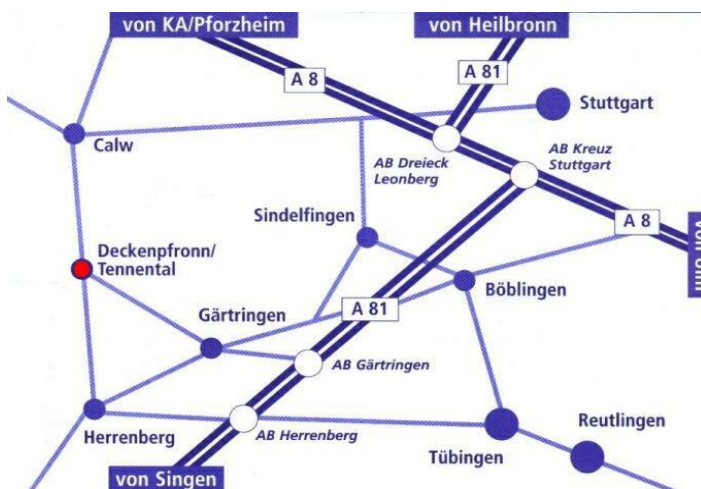

As it was agreed during the second partnership meeting in Foligno last September 2016, the next project's event will take place at the [Dorfgemeinschaft Tennental](#), a living and working community with a biodynamic farm situated at southwest of Stuttgart, in Germany.

How to get here?

The closest international airport is in Stuttgart, though for some of the project partners and the international peer-reviewers it may be easier and more convenient to take a train. From the airport, you take the train "S2" or "S3" towards Stuttgart main railway station. There you have to change to the train "S1" towards HERRENBERG railway station, where you have to get off the train and search for the transfer service

to the hotel (*more details will be provided one week before the meeting*).
